

# DIVERTER MANIFOLD

## *Product Catalog*

## DIVERTER MANIFOLD

- VDTC Manifolds are designed and manufactured to meet customer's requirement such as 4, 7, 8 or 9 valve Manifold.
- Two burners are normally available for offshore operations to allow continuous testing under any prevailing wind direction. Either the port or standard burner can be selected without stopping the Well tests.
- The Oil manifold consists of five Ball Valves arranged as a manifold and is skid mounted. The gas manifold is fitted with two ball valves and is also mounted on a skid.
- All VDTC manifolds are manufactured under type Approval or Design Verification Review and are provided with Certificate of Conformity and quality file.

## TECHNICAL FEATURES

- Pressure Tested Assembly
- Individual Pressure Tested Fittings and Valves
- Full material Traceability
- Standard and H2S Service
- API 6A PSL 1,2,3 or 4
- All API 6A Material class available
- Temperature rating P to U
- Third-Party Approval and Certificates on Design and Manufacturing available.
- Skid Mounted if required
